VIDAS® AUTOMATED IMMUNOASSAY SOLUTION

Simple, Reliable, Robust

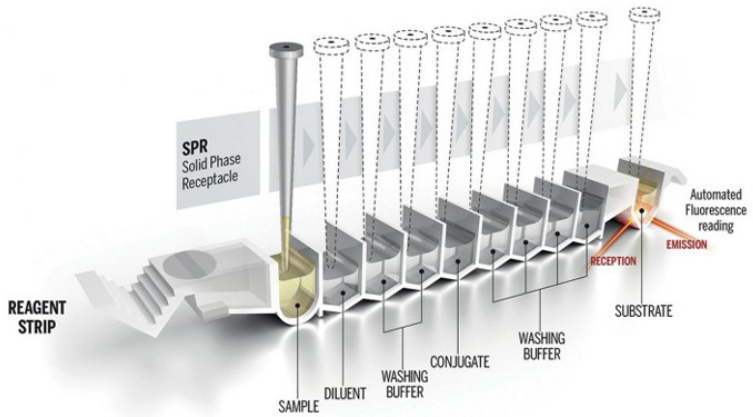

Your Trusted Partner in Augmented Diagnostics

PIONEERING DIAGNOSTICS

EASY, AUTOMATED FOOD PATHOGEN DETECTION

For over 30 years, VIDAS® has set the standard in automated food pathogen detection. Today, more than **3,500 laboratories** worldwide rely on VIDAS® for routine food safety testing.

VIDAS® delivers **fast, accurate, and reproducible results while reducing manual workload and ensuring audit-ready traceability.** Replace labor-intense traditional methods with a trusted system that integrates seamlessly into your existing workflow.

WHAT DOES IT MEAN FOR YOU? Empowering Action Beyond the Result

Faster Decisions

- **High throughput:** Up to 72 test/hour
- **Rapid results in 24-48h** after enrichment
- **Fully automated system** with error detection

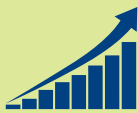

Reliable Results

- **Validated methods:** AFNOR, AOAC, Health Canada
- **Consistent performance** across laboratories
- **Long shelf life** reagents

Operational Efficiency

- **Ready-to-use reagents** simplify daily workflows
- **Minimal hands-on time:** only 1 or 2 pipetting steps
- LIMS connectivity

Robust Performance

- **Robust** instrument design
- Annual maintenance **only**
- Optimized cost-per-test and **fast ROI**

VIDAS® KUBE™: Enter A World of Simplicity

VIDAS® KUBE™ combines innovative features with the long-standing reliability of the VIDAS® family.

- **Space-saving design:** stackable benchtop modules (up to 6)
- **Intuitive operation:** User-friendly software interface
- **High flexibility:** test multiple parameters within the same run
- **Optimized costs:** Shared calibration across modules

APETITO UK IMPROVES THEIR PATHOGEN TESTING WITH VIDAS® KUBE™

To support their daily workflow of over 100 samples, the laboratory at apetito UK upgraded from their legacy VIDAS® 30 system to VIDAS® KUBE™ for routine pathogen detection.

"All products are positive released by the lab, so it's vital that we get accurate testing results input into our system as quickly as possible. [...] VIDAS® KUBE™ is a solid upgrade that improves on an already great system."

Austin Allen, Lab Supervisor for Apetito UK for 22 years

THE AUGMENTED DIAGNOSTICS APPROACH: FROM TEST RESULTS TO ACTIONABLE INSIGHTS

bioMérieux's Augmented Diagnostics approach combines cutting-edge microbial testing technologies (including **Microbiology** and **Molecular Biology**) with the latest **Genomics** and **Data Science** methodologies, as well as an innovative spirit and **industry experts**.
